

FY 2003 FEE RESOURCE MANUAL

ProtectTexasTM
Texas Department of Health

PREFACE

Pursuant to the requirement of Texas Department of Health Rider 7, Senate Bill No. 1, 77th Legislature, Regular Session, the Board of Health has reviewed the fee schedules within its authority.

This manual compiles basic information about the fee programs administered by the Texas Department of Health. It responds to the need for a single reference to answer fee-related questions from legislators, budget offices, regulated entities, and others. Information contained in this manual includes the date of origin and the statutory authority for each fee. A brief description of the fee, its revenue history, and deposit coding information are also included.

This manual is updated annually. Requests for additional information or recommendations for improving the manual may be sent to the Budget and Revenue Division, Texas Department of Health, 1100 W. 49th Street, Austin, TX 78756. Comments may also be sent via e-mail to bea.sneed@tdh.state.tx.us.

If noncontiguous uranium recovery facility sites are authorized under the same license the appropriate fee shall be increased by 25% for each additional site for an operational year and 50% for closure only.				
If an authorization for disposal of byproduct material is added to a license, the appropriate fee shall be increased by 25%.				

RADIOACTIVE MATERIALS AND DEVICES

One-time fee adjustments for uranium recovery and byproduct material disposal facility licenses. For the addition of the following items after an environmental assessment has been completed on a facility, a one-time fee corresponding to the item shall be paid:

\$22,389 for an in situ wellfield on noncontiguous property;

\$55,977 for an in situ satellite

\$8,777 for wellfield on contiguous property

\$39,653 for non-vacuum dryer; or

\$55,977 for disposal (including processing, if applicable) of byproduct material.
